TEACHING EXPERIENCE

Adjunct Faculty, King University 2015-present
Online psychology instructor for class sizes ranging from 15-20 students using Blackboard, Canvas, and MindTap. Graded tests and essays, met by phone, and supported continuations for students with special needs. Courses included: Applied Psychology, Cognitive Psychology, Lifespan Human Development, Social Psychology, General Psychology, Theories of Personality, Research Methods and Measurements, Individual Research Project.

Associate Professor, Myrtle Beach College 2021-present
Online psychology instructor for a psychology of death and dying course. Duties include creating video lectures for each chapter and scaffolding learners in a tuition-free higher education institution. Faculty work together with the college to deploy and enhance accredited courses using the Cengage Mindtap platform.

Lesson Reviewer, Study.com 2018-2020
Lesson reviewer for computer and information systems lessons for higher education. Duties included assuring accuracy and clarity of content, and contributing to the published lesson.

Course Developer, Citizens' High School 2017-2018
Parenting and Child Development: Identified course and module objectives and program learning outcomes. Selected textbook, developed lecture and presentation materials. Constructed and tested Canvas delivery platform with multimedia materials and flashcards.

Lesson Writer, Study.com 2015-2016
Designed and composed educational lessons in computers and information technology for a popular online higher education site (previously named Education Portal) following specific requirements and with the collaboration of lesson editing and development teams.

CV
